

VX-1700

HF Mobile Radio

SPECIFICATION SHEET

Multi-Mode Mobile HF Radio

The multi-purpose I25-Watt VX-I700 is designed to operate as a mobile radio or as a base station for long-haul land mobile communications. Operating modes include LSB/USB (J3E and J2B), AM (A3E) and CW (A1A), making the VX-I700 ideal for a wide variety of applications.

Large Channel Capacity

The VX-1700 can store 200 channels arranged in five groups with the flexibility to have any number of channels per group. Each channel can be programmed with a 6-character alphanumeric description for quick and easy call management.

Automatic Link Establishment (ALE) Option

With the ALE-I option installed, the VX-I700 Automatic Link Establishment feature selects the channel with the best LQA (Link Quality Analysis) score from the programmed channels automatically.

Flexible Calling Options

The VX-1700 provides six different built-in calling modes to support various communications requirements including SELCALL, TELCALL, Message Call (for text messages), Position Request Call, Position Send Call and Beacon Request Call to check signal quality.

Dual Watch Operation

Operate the VX-1700 radio on one channel while periodically monitoring the designated memory channel to ensure a call is not missed. Ideal for emergency management situations when it is important that a call gets through to dispatch.

Additional Features

- Four programmable keys
- · Noise blanker
- · CW Semi break-in
- · CW Side tone function
- VOX
- VFO Mode
- Field memory channel storage

Accessories

- MD-12A8J: Desktop microphone
- MD-100A8X: Channel control desktop microphone
- FP-1030A: External power supply
- MLS-100: External speaker
- ALE-I:Automatic link establishment unit
- FC-30:Antenna tuner (coaxial lines)
- FC-40:Antenna tuner (wire/whip antennas)
- YA-30: Broadband HF antenna 23.4 m
- YA-31: Broadband HF antenna 15 m
- YA-007FG: HF Multi-band mobile antenna (7 MHz to 30 MHz requires FC-40)
- MMB-89: One-touch mobile bracket
- MHG-I: Carrying handle

Option Board

 FVP-39:Variable split-band voice scrambler (FVP-24 compatible)
